portfolio.com

Skills

Programming Languages: Java, C++, JavaScript, TypeScript

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS

Backend: Spring Boot, Node.js, REST APIs, Microservices (basics), OAuth 2.0, JWT

Databases: MySQL, MongoDB

Developer Tools: Git, GitHub, Docker, Postman, VS Code, Cursor IDE, Claude AI

Core Concepts: Object-Oriented Programming, Data Structures & Algorithms, API Testing, AI/ML Integration

Experience

Software Engineer Intern

Oct 2025 – Dec 2025

Sendora.ai [Offer Letter]

Next.js, Node.js, REST APIs, OAuth 2.0, JWT, SQL

- Engineered a daily content-aggregation pipeline processing 1,000+ viral posts and videos via YouTube and LinkedIn APIs, cutting manual discovery effort by 60%.
- Established secure authentication and authorization across 2 API layers using OAuth 2.0 and JWT, protecting application resources and user data.
- Built backend APIs and optimized SQL queries for pipelines processing 1,000+ daily records, improving data retrieval efficiency.
- Contributed across the full software development lifecycle (SDLC), supporting 20+ feature deployments while maintaining high software quality standards.

Full Stack Developer Intern

Jan 2025 – Jul 2025

Eizen.ai [Experience Letter]

React.js, Spring Boot, AI/ML Integration

- Redesigned and enhanced 5+ core frontend modules using React.js, improving application responsiveness, usability, and scalability across multiple devices.
- Integrated ML-powered real-time video analytics into a mobile app, enabling object detection and event recognition across 4 camera feeds.
- Collaborated with AI/ML engineers to integrate 4+ data-driven models into user-facing applications, ensuring seamless communication between frontend and backend services.
- Delivered 3 real-time monitoring dashboards and analytics features that accelerated decision-making and improved operational efficiency.

Projects

AI Interview Preparation Platform — Next.js, Spring Boot, MySQL

2026

- Architected a full-stack AI-powered interview preparation platform using Next.js, Spring Boot, and MySQL.
- Created resume parsing and AI-generated interview questions tailored to candidate skills and job descriptions.
- Integrated LLM APIs to provide real-time mock interview sessions, answer evaluation, and personalized feedback.
- Configured secure authentication and role-based access control (RBAC) using JWT and OAuth 2.0.
- Developed analytics dashboards tracking 3 key metrics – interview performance, ATS score, and skill improvement – to help users identify gaps.

E-commerce Website — MERN Stack (MongoDB, Express, React, Node.js)

2023

- Developed and deployed a full-stack e-commerce application with dedicated interfaces for users and administrators to enhance user experience.
- Built core features including add-to-cart functionality, product management, and order workflows, improving the overall shopping experience.
- Ensured cross-browser compatibility and responsive design, providing a seamless experience across desktop, tablet, and mobile devices.
- Applied secure user authentication with sign-up, sign-in features using JWT for encrypted credential handling.

Achievements

- Solved **280+** problems covering arrays, strings, linked lists, stacks, queues, trees, graphs, recursion, and dynamic programming.
- Solved **200+** competitive programming problems in C++ on CodeChef, demonstrating strong problem-solving.

Certifications

- Oracle SQL** – Great Learning Academy [Certificate Link]
- Programming in Java with Data Structures & Algorithms** – CipherSchools [Certificate Link]

Education

Bachelor of Technology (B.Tech) – Computer Science and Engineering

July 2021 – August 2025

Lovely Professional University

Punjab, India
